PRODUCT DESCRIPTION

VENOM FRAMELESS - EYE CANDY

A treat for the eyes, and face, the Venom Frameless is incredibly comfortable with low volume, hydrodynamic construction and exclusive Atomic “Wicked” styling. It’s co-molded with two silicone materials in two levels of softness, and features Schott Superwite™ UltraClear lens for the clearest dives.

The VENOM Frameless is incredibly comfortable with low-volume, hydrodynamic construction and exclusive Atomic “Wicked” styling. Co-molded with two silicone materials in two levels of softness and features the exclusive Atomic UltraClear lens. It will change the way you think about dive masks.

A LEAP IN MASK TECHNOLOGY, THE VENOM FRAMELESS INTRODUCES THESE TOTALLY NEW AND UNIQUE FEATURES.

Co-Molded Silicone

Two different hardness silicone materials are co-molded together to form the mask skirt which is bonded directly to the glass, eliminating the need for a frame and providing maximum viewing area.

New Face Seal Geometry

New special geometry of the face seal is optimized to take full advantage of the UltraSoft silicone material.

“Gummi Bear UltraSoft” Face Seal

Provides an incredibly soft and accommodating face seal for all kinds of faces.

Rigid Silicone Skirt

Also soft but won't collapse, distort, or fold under pressure or in turbulent conditions. Keeps the skirt centered on the face for a reliable seal.
