Z3 ZIRCONIUM REGULATOR

ADP

ATOMIC AQUATICS SIGNATURE FEATURES

Divers on a budget can experience virtually the same easy, natural breathing and corrosion-resistance as the entire Atomic regulator line. The performance is delivered from patented Atomic exclusives including the Jet Seat piston and AFC. The economy is achieved from exclusive use of Zirconium-plated Brass materials.

JET SEAT PISTON

The Atomic Jet Seat system has no sharp edges that can damage the seat over time, like most competitor's first stages. Instead, Atomic employs a conical seat and blunt-end piston. Our valve seats are precision machined from an extremely strong aerospace specification seat material. This design combination is the most reliable seat system in the industry and enables the seat to go 2-years or 300 dives without service. Diving performance is superior at even low tank pressure.

ALL BLACK PATENTED COMFORT SWIVEL

When you turn your head to look at something interesting, you'll look great doing it with the uniquely all-black Atomic Comfort Swivel. This exclusive Atomic design allows 30° rotational movement without hose pulling, binding or kinking. The Z3 version is precision-machined Brass with black PVD coating. (US Patent No. 7,188,869)

SEAT SAVING ORIFICE - EXTENDS SERVICE INTERVAL TO 2 YEARS OR 300 DIVES

AFC - AUTOMATIC FLOW CONTROL - AUTO PRE-DIVE / DIVE SETTINGS

Z3 FIRST STAGE FEATURES

- Chrome-plated Brass and 316 Stainless Steel
- Atomic exclusive balanced Jet Seat high-flow piston.
- Optional factory-sealed to prevent outside contamination from silt and sand.
- Nitrox ready - approved for non-dedicated EAN use with mixtures up to 40%.
- Ports: 2 HP fixed / 7 LP on fixed cap.

Z3 SECOND STAGE FEATURES

- Precision-machined Brass with Zirconium plating and Titanium components.
- Pneumatically-balanced poppet, high-flow case and lever design for easy breathing at all depths and

tank pressures.

- Patented Atomic AFC – Automatic Flow Control.
- Soft overmolded Rapid Adjustment Knob for manual detuning in special situations such as surf entries or octo use.
- Patented Atomic Titanium Seat Saving Dynamic Orifice maintains crisp like-new factory tuning and prevents damage during storage.
- Z3 hose features patented Brass Atomic Comfort Swivel with Black PVD coating.
- Dual material second stage cover enables entire front to be used for purge.
- Elliptical exhaust valve dramatically reduces exhalation effort at depth.
- Dual silicone comfort fit mouthpiece with tear-resistant bite tabs – both comfortable and durable.
- Z3 optional color kit available.

Z2 OCTO FEATURES

- A perfect complement to any of our regulator systems, the Z2 OCTO is an affordable Safe Second for any dive rig. Zirconium-plated Brass and Titanium metal components, make this OCTO a real workhorse.
- Patented Atomic AFC – Automatic Flow Control with Rapid Adjustment Knob for manual detuning in special situations.
- Patented Atomic Titanium Seat Saving Dynamic Orifice prevents wear of the low-pressure seat that extends the service interval and improves reliability.
- Compact with a low profile exhaust deflector that fits easily into pockets.
- Bright Neon Yellow flexible front cover for high visibility.
