Wear minimal clothing (T-Shirt, shorts, bathing suit) at the time of measuring. All measurements should be taken with a soft tape measure pulled snug but not tight. Stand straight, looking forward with your feet flat on the floor. It is best to have two people take the measurements, in order to ensure the optimal measuring stance.

The diagram shows a human silhouette with five measurement points indicated by circles and lines. Point 1 (CHEST) is at the widest part of the chest. Point 2 (WAIST) is at the narrowest part of the torso. Point 3 (HIPS) is at the widest part of the hips. Point 4 (THORAX) is at the top of the shoulders. Point 5 (INSEAM) is along the inner leg from the crotch to the floor.

WEIGHT: As close as you can accurately

HEIGHT: From the top of your head to the floor

1. CHEST: Measure around the fullest part

2. WAIST: Measure around the narrowest part

3. HIPS: Measure around the fullest part

4. THORAX: Top of shoulder to neck vertically

5. INSEAM: Measure from crotch to floor
