PRODUCT DESCRIPTION

The streamlined design of the Stahlsac 34in Steel Wheeled Bag contains a sealed water-resistant compartment for keeping your wet, dirty gear separate from dry clothing and items. Quick-access zippers expedite retrieval times while the bright interior lining makes it easier to locate small possessions.

A versatile add-a-bag strap for attaching a carry-on backpack or briefcase makes for easy travel at the

airport. Sturdy all-terrain wheels and heavy-duty reinforcements provide durability that can go anywhere, from pier to concourse.

Dimensions: 86 x 43 x 30 cm (volume 110 l).

- Built to airline size and weight requirements
- WET/DRY: Waterproof bottom compartment for wet or dirty items
- Breathable top compartment for damp gear to air out
- Heavy-duty rail along the bottom and reinforcements with abrasion-resistant material on corners for travel toughness
- Low-Profile frame system reduces height for easy storage
- Replaceable frame components and wheels
- Multi-purpose changing pad with anti-slip bottom
- Quick-Access front zippered pockets
- Sturdy, comfort grab handles for easy lifting and maneuvering
- Add-a-Bag strap to easily attach secondary bags to roller
- Bright interior lining to find small items easily
- Water-resistant zippers with sturdy pulls for protection from the elements
- Ergonomic compression straps on the outside for space saving cinching
- Combination of 630D / 420D HD fabric with DWR finish for high water resistance
- Combination of Hypalon and Tarpaulin for reinforcement and abrasion resistance on stress points
- Compartmens for your scuba diving or freediving equipment.
