

STAHLSAC STEEL DUFFEL

€149,00

Great for a a quick trip to the water, the Stahlsac Steel Duffel easily switches from backpack to shoulder bag and will make for a great supplemental carry-on during your next dive trip. Equipped with abrasion-resistant reinforcements and Stahlsac’s WETDRY design, the Steel Duffel has separate compartments for your wet and dry items so you don’t have to saturate your evening clothes after a surf session, snorkel or free dive. Multiple internal mesh pockets help keep your valuables organized and water-resistant zippers keep the elements out. Tough, portable and versatile, this bag can do it all.

Dimensions: 29 x 61 x 28 cm (volume 49 l).
