FULL-FACE SNORKELING MASK

Black Series

Breathe through your nose while snorkeling.

Goodbye jaw discomfort (so uncomfortable most people go to bite caps). Goodbye difficult breathing and goodbye water in your snorkel thanks to our dry snorkel. For good. Huge field of vision and no more fogging thanks to our patented and independently tested air circulation technology.

TUSA Sport Full-Face Snorkeling Mask has a uniquely designed orininal for optimal sealing around your nose. All our tests are conducted in water and with actual use in mind. Our masks are not only designed in Italy, but are also Made in Italy. Snorkeling re-invented.

FEATURES

SNORKEL & BREATHE LIKE BROTHER NATURE TAUGHT US

Goodbye jaw discomfort, goodbye difficult breathing and goodbye water in your snorkel. For good. With TUSA Sport Full-Face Snorkeling Mask you breathe through your nose, while the dry top prevents water from getting in the snorkel. Now your mouth is free to stay. WOW!

180° AUGMENTS YOUR FIELD OF VISION, THE MOST!

TUSA Sport Full-Face Snorkeling Mask has the largest field of vision of any mask out there.

NO MORE FOGGING PROBLEMS

Goodbye foggers, hassles and lost opportunities to see the fish of a lifetime. TUSA Sport Full-Face Snorkeling Mask's breathing circulation inside the mask's frame guarantees no fogging and no extra stress. Just take it out and jump in.

DRY TOP SNORKEL

No more water getting in your snorkel, you don't have to clear it if you go under water, and no water gets in if there's surf, splash or surf. Just breathe comfortably and enjoy the ride.
