PRODUCT DESCRIPTION

ZEAGLE FURY BCD

Taking adjustability to the next level, the Fury BC builds on our Personal Fit System (PFS) to provide the absolute best fit on the market. The result is a custom-tailored, custom-fitting BC that’s unparalleled in rugged utility.

The shoulders, vest, and waist panel are all fully adjustable. The weight system is modular and interchangeable, now offering our standard Ripcord (RC) weight release system, or our new Quick-Lock Release (QLR) system. Couple that comfort with Zeagle’s legendary durability and watch as the ultra-sturdy 1000 denier nylon thrives for years in the sand, sea, and sun.

RIPCORD SYSTEM

When it comes to BCDS, we think safety should come first, and so should you. Because in the field-and especially in the water-you’ve gotta be ready for anything. That’s why, since the 1970s, we’ve based our Ripcord Weight Release System on release systems used by skydivers. The result? Weight release systems that instantly release weights from both sides with a single pull.

PULL THE TRIGGER WITH SINGLE-POINT RELEASE

Where most scuba diving manufactures’ weight release systems require two-handed operation, Zeagle’s one-handed operation is simple and effective-just what you need in case of an emergency.

SINGLE-POINT EMERGENCY WEIGHT RELEASE SYSTEM

Dump your weights with one hand while managing your buoyancy with the other. Or, if your dive buddy needs to dump your weights, they need only pull from a single point.

SPECS

The Fury’s modular construction allows it to transition between warm travel diving, rugged cold-water diving in wet/drysuits, single or twin cylinder—even tech diving. And of course, the Fury’s tough as nails. Constructed of reinforced 1050 denier ballistic nylon, the Fury is compatible with a variety of options and accessories, including bladders, pockets, hard backplates, as well as custom attachment components.

- 26lbs / 11.6 kg or 33lbs / 15 kg lift capacity (standard, other capacities available as options)
- 16lb/7.3kg capacity rear trim weight system
