

OCEANIC+ DIVE HOUSING

YOURDIVEYOURSTORY

Now you can use your iPhone as both an underwater camera and dive computer!

Oceanic+ Dive Housing allows you to take great photos with automatic color correction on your iPhone whether diving, snorkeling, paddling, or playing in the water.

With the Oceanic+ app and Dive Housing, your iPhone also becomes a fully functional dive computer, certified to EN13319 which is the internationally recognized standard for scuba diving gauges.

One app, one subscription, two devices! With the Oceanic+ app, you can use the same subscription for both the Apple Watch Ultra and iPhone. This allows you to have two units sharing the same subscription to save you money. It also provides greater redundancy for diving with both the Apple Watch Ultra and iPhone with Oceanic+ Dive Housing.

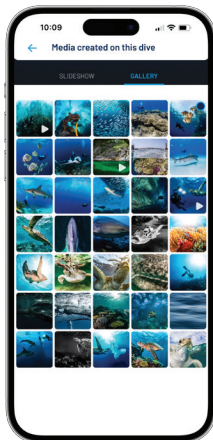

Color	Great White
Weight	2.15 lb/975 g
Dimensions	9.7 in W x 4.4 in H x 2.7 in D (24.6 cm W x 11.2 cm H x 6.9 cm D)

FEATURES OF OCEANIC+ WITH DIVE HOUSING:

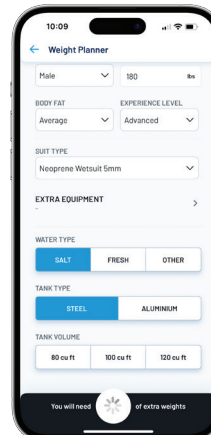

USER GENERATED CONTENT

To help you plan your dive, check out weather, water temperature and more from other divers around the world.

WEIGHT CALCULATOR

This feature helps you plan what weights are needed based on equipment, location.

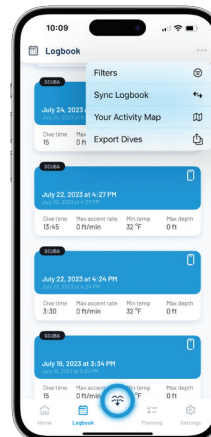

ACTIVITY MAP

See all your dives in one location on the app.

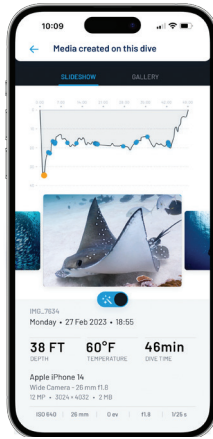

EXPORT LOGBOOK TO 3RD PARTY APPS

You can export your dives to whatever 3rd party app you already use for your dive logbook.

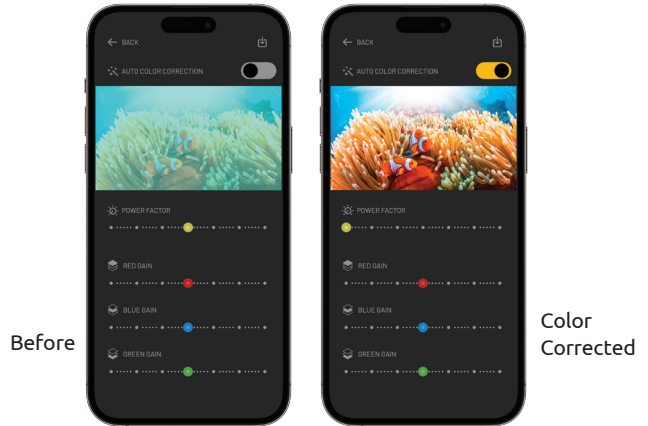

FREE MEDIA EDITING

Free version of Oceanic+ includes ability to save media to your dive logbook and auto color correct photos and videos.

ADVANCED COLOR-CORRECTION (WITH PAID SUBSCRIPTION)

With the Oceanic+ app, you can color-correct images and videos easily with the automatic color-correction as well as the advanced color-correction tools.

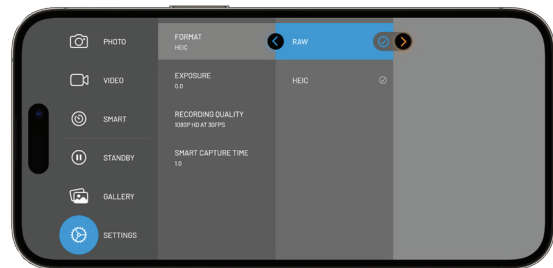

SHARE YOUR IMAGES WITH YOUR DIVE PROFILE OVERLAYED

Tell your dive story by sharing your images and dive profile with your family and friends.

CHOOSE BETWEEN COMPRESSED AND RAW

Whether you want small or large image files of your dive, you have the ability to choose between compressed and RAW images in the Oceanic+ app. Choose the subscription version of the app for advanced editing tools.

CHOOSE VIDEO RECORDING QUALITY

The video option on Oceanic+ offers various format options, ranging from classic HD at 30 and 60 frames per second up to 4K. Resolution depends on the iPhone model being used.
